

Din Rail Mini Circuit Breaker

DZ47- Product Series

Instruction Manual

EARU
ELECTRIC

For optimal performance, please read this manual before using the sensor, and keep it properly for easy reference at any time.

EN Important Safety Instructions

WARNING

This product does not feature an explosion-proof structure and must not be used in flammable environments, such as those containing flammable gases, liquids, or explosives.

SAFETY INFORMATION

1. Please use this product in accordance with the instructions in this manual.
2. Do not disassemble this product by yourself.
3. Pay attention to the rated voltage for use.

Product Description

C45N series circuit breaker is used in lighting distribution system or motor distribution system for protecting overload and short-circuit in the system.

Product Parameters

Product Series: DZ47	Product Characteristics: C type
Rated Voltage: 230/400V~	Mounting: rail mounted
Mechanical lifespan: 20000 cycles	Product Certification: CE
Compliant With Standards: IEC60898-1	Rated Short-Circuit Capacity: 6000A
Function: Overload/short circuit protection
